

FUEL ADDITIVE 2 IN 1 GASOLINE / PETROL FUEL INJECTOR CLEANER

Product Description:

MOMO RACING Fuel Additive 2 in 1 is a high quality fuel additive that effectively cleans fuel injectors, intake valves, and combustion chambers - removing carbon, gum, resin and varnish deposits to help improve fuel economy and restore power. The Fuel Additive 2 in 1 works in the time that it takes to consume one tank of gasoline / petrol 50 liters. In addition to removing gums, resins and deposits, our fuel system cleaner can also protect against the carbon build up that occurs over time. With the increased use of lower and mixed qualities of discount gasoline /petrol, the need for cleaning your engine from the inside-out is becoming increasingly important. The build up of deposits affects engine performance, causing poor fuel economy, loss of horsepower, rough idling and hesitations when stepping on the gas pedal. These problems are often first noticed when starting the vehicle, after driving shorter distances or driving at lower speeds. By adding a quality fuel additive 2 in 1, it can prevent and even eliminate problems. Using our fuel system cleaner every 3,000 – 4,000 miles can keep the engine clean and running efficiently. Fuel system cleaners are a small investment in better automotive performance.

Typical Physical Characteristics

| PROPERTY TEST | UNITS | METHODS | RESULT |
|----------------------------|-------|-----------|--------|
| Colour | | ASTM1500 | L1.0 |
| Density @ 15 °C | kg/m3 | | 0.82 |
| Kinematic Viscosity @ 40°C | cSt | ASTM D445 | 20 |
| Flash Point | °C | ASTM D93A | 73 |
